

AREEBA ARSHAD

Frontend Engineer | React · Next.js · TypeScript · Vue.js

+92 309 4766573 • areebaars1@gmail.com • Lahore, Pakistan • [linkedin.com/in/areeba-arshad](https://www.linkedin.com/in/areeba-arshad) • github.com/areeba-arshad • areeba-portfolio-theta.vercel.app

PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience building scalable, high-performance web applications across SaaS, EdTech, and ecommerce domains. Proficient in React, Next.js, TypeScript, Vue.js, and Nuxt with a strong focus on component architecture, REST API integration, JWT authentication, and Core Web Vitals optimization. Delivered measurable impact — 35% bundle size reduction, 40% fewer network requests, 25% onboarding improvement — while collaborating in Agile teams. Passionate about writing clean, accessible, and maintainable code that ships on time.

TECHNICAL SKILLS

Frameworks & Libraries: React.js, Next.js, Vue.js, Nuxt, JavaScript ES6+, TypeScript

Styling & UI: Tailwind CSS, CSS Modules, Sass, Framer Motion, Responsive / Mobile-First Design

State & Data: React Query, React Context API, Custom Hooks, REST APIs, GraphQL

Auth & Security: JWT, Role-Based Access Control, Protected Routing, OAuth

Performance & SEO: SSR, ISR, SSG, Lazy Loading, Code Splitting, Bundle Optimization, Core Web Vitals

Testing & Quality: Jest, React Testing Library, ESLint, Prettier, Cross-Browser Compatibility, Web Accessibility

Tools & DevOps: Git, GitHub, Vite, Webpack, Vercel, Figma, Postman, CI/CD, Agile / Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer | Scrapers

Nov 2025 – Present

Lahore, Pakistan • On-site

- Architected 5 production-grade web apps using React, Next.js, TypeScript, Vue.js, and Nuxt; built a 40+ component shared UI library, cutting new feature development time by 30% and enforcing design consistency across teams.
- Integrated RESTful APIs via React Query with caching, optimistic updates, and cache invalidation, reducing redundant network requests by 40% and improving overall application responsiveness.
- Implemented role-based access control with protected routing and JWT auth across 3 user roles, eliminating all unauthorized access incidents and driving security bug reports to zero.
- Boosted Core Web Vitals (LCP, CLS, TTI) through lazy loading, dynamic imports, code splitting, and Webpack bundle analysis — achieving a 35% reduction in initial bundle size.
- Partnered with 6 engineers and designers to translate Figma designs into accessible, responsive UI components delivered consistently within Agile sprint timelines.

Frontend Developer | World Wide Admission Hub (WWAH)

Nov 2024 – Oct 2025

Lahore, Pakistan • On-site

- Led frontend of an AI-powered student admission platform serving 5,000 active students using React, Next.js, and TypeScript, directly contributing to a 25% increase in user onboarding completion.
- Constructed a complete authentication system — registration, login, JWT token management, protected routes, and session handling — across multiple user roles, reducing unauthorized access to zero post-launch.
- Built 8 data dashboards and a student profile module using React Query for real-time server state sync, cutting manual page refreshes by an estimated 60%.
- Applied SSR and ISR across 20 Next.js pages, boosting SEO indexing scores and reducing time-to-first-byte by approximately 40%.
- Shipped 20 modular UI components within Agile sprints using component-driven development, shortening QA turnaround by 20% and increasing team velocity.

Frontend Developer | North Rays Technologies

Aug 2024 – Oct 2024

Lahore, Pakistan • On-site

- Developed and maintained 4 business websites using React and TypeScript, achieving 100% client approval on delivery with zero post-launch defects.

- ▶ Assembled a library of 25 reusable React components with TypeScript interfaces and prop validation, reducing code duplication by 40% and shortening average feature delivery by 2 days per sprint.
- ▶ Integrated 10 third-party REST APIs with error handling and React error boundaries, cutting runtime API failures by 50% and strengthening application reliability.
- ▶ Validated layouts across Chrome, Firefox, Safari, and Edge on 5 device breakpoints — zero compatibility issues escalated by clients.

Frontend Developer Intern | AppsGenii Technologies

May 2024 – Jul 2024

Lahore, Pakistan • On-site

- ▶ Built mobile-first UIs for 3 client projects using React, JavaScript, and Tailwind CSS with REST API integration, reducing handoff turnaround time by 30%.
- ▶ Contributed 15 reusable components to a shared design system, cutting new developer onboarding from 2 weeks to under 1 week.
- ▶ Followed Git branching workflows and participated in code reviews with senior developers, reducing merge conflicts by 25% and maintaining a clean version history.

SELECTED PROJECTS

World Wide Admission Hub — *Next.js · TypeScript · React Query · SSR · JWT*

- ▶ AI-powered student admission platform for 5,000 users with role-based dashboards, SSR/ISR for SEO, and AI-assisted counseling — improved onboarding conversion by 25%. Live: [wwah.ai](#)

Carflix — Vehicle Marketplace — *Next.js · TypeScript · REST API · SSR · Lazy Loading*

- ▶ Vehicle marketplace with advanced search/filtering, SSR product pages, and image lazy loading — reduced listing load time by 45%. Live: [carflix.scraperrs.com](#)

Red Sea Mall — Ecommerce Storefront — *Next.js · TypeScript · SSR · Responsive Design*

- ▶ High-traffic storefront with optimized checkout flow, mobile-first design, and green Core Web Vitals — sub-2s LCP across all key pages. Live: [redseamall.com](#)

Pulsse — Enterprise SaaS Dashboard — *React · TypeScript · RBAC · JWT · React Query*

- ▶ Multi-tenant dashboard with granular RBAC across 3 roles, secure JWT auth, subscription workflows, and real-time data visualization — unauthorized access incidents reduced to zero. Live: [pulsse.io](#)

Stylz — Lifestyle & Beauty Platform — *Next.js · TypeScript · Framer Motion*

- ▶ Lifestyle platform with Framer Motion animations, engagement-optimized UI, and fast page transitions — improved average session duration and user retention. Live: [stylz.me](#)

EDUCATION

Bachelor of Science in Information Technology

2020 – 2024

Superior University, Lahore, Pakistan

AWARDS & ACTIVITIES

- ▶ Devsinc Devathon (Aug 2024) — Placed among top teams in a competitive product hackathon; demonstrated rapid prototyping and cross-functional collaboration under pressure.
- ▶ 10Pearls SheTech Hackathon (2024) — Collaborated with a team of 4 to design and ship a real-world web solution in a women-in-tech initiative; applied UI/UX thinking and React skills to deliver a working product.
